<b>DESIGN</b>					
1. Document is subdivided into logical supporting pages or, if presented as a single page, it offers a table of contents with section links to avoid scrolling through entire document.	1	2	3	4	5
<u>Please explain your feedback</u> I give this website a 4 in how it is designed with it's pages. I would rather have everything on one page but like that it is organized.					
2. The site displays sound design principles, including uncluttered space, subdued backgrounds, and coordinated colors.	1	2	3	4	5
<u>Please explain your feedback</u> I give this website a 3 in how it is displayed. The home page seems very chunky in parts, size of the font is inconsistent, and some of the links are very hard to see. I like the background color and the font color but feel that some of the tabs are a little hard to make out.					
3. Navigation is intuitive, easy to understand, and provides flexibility in movement.	1	2	3	4	5
<u>Please explain your feedback</u> I give the website a 4 in navigation because it is easy to go from page to page and back to the home screen. I wish that the home page had a back to the top button. I also would rather have one webpage than multiple pages.					
4. Homepage is linked from all subsequent pages.	1	2	3	4	5
<u>Please explain your feedback</u> I give this website a 5 in linked pages. Every link works and is easy to go from one page to another and back.					
5. Multimedia elements have a clear purpose.	1	2	3	4	5
<u>Please explain your feedback</u> I give this website a 5 on multimedia. Even though I really don't use Mr. Peters videos, I like that on the website I would have direct access to the link. I is easier to find than on Google Classroom. I also like how pictures relate to what we are doing in class.					
6. Multimedia elements load quickly.	1	2	3	4	5
<u>Please explain your feedback</u> I give this website a 5 on multimedia loading. When I click on the website the multimedia takes me directly there. Also when I clicked on the website the picture loaded pretty quickly.					
7. Text is easy to read and contrasts with background.	1	2	3	4	5
<u>Please explain your feedback</u> I give this website a 3 or 4 on the text and contrast. The background and the white text works well together but some of the pages has gold background and makes it hard to see. Also some of the links are not highlighted and hard to see.					
8. Site content is widely accessible or appropriate	1	2	3	4	5

adaptations or explanations have been made.

Please explain your feedback

I give this website a 5 in accessibility and explanation. Every aspect of Mr. Peters Class is highlighted or explained. I can easily find everything that I would need for the class. The resources page doesn't have anything but Mr. Peters explained that this page would have vocabulary and links that I would need.
